

VIDEO FORMAT OVERVIEW

There are several different types of digital video format available and suitable for e-mail services. The most common types and free download information follows. But be warned, while the media players are free, there are several cost and upgrade options closely positioned near the free players on each of the sites. So be careful when making selections.

Format 1: Real Systems: High quality for small file sizes with very good compression technologies for most media forms.

Player Download available from:

http://forms.real.com/netzip/intl/intl_getrde601.html?lang=en&h=software-dl.real.com&f=windows/mrkt/R30AZD/RealPlayer10-5GOLD.exe&p=RealPlayer&oem=rp10_en_au&src=intl_au-home,011404intl_enau_choice,012704radiopass_choice_dl_enau&tagtype=ie&type=rp10_en_au

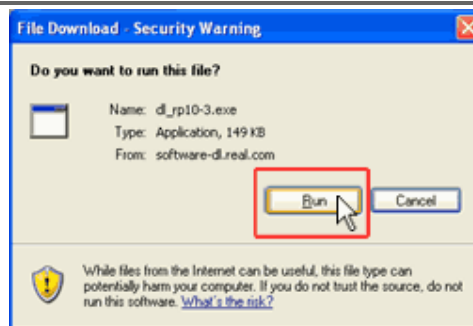

Download Instructions

1. Click on **Start RealPlayer Download**

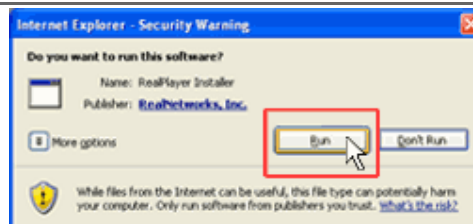

START REALPLAYER DOWNLOAD

Dial-up users: Please note that installer prompt may take up to 1 minute to appear.

2. Click **Run**
RealPlayer Installer will load.

3. Click **Run** Again
RealPlayer Installation will begin.

Format 2: Apple QuickTime: Originally designed for Apple Macintosh computer systems and one of the most experienced.

Download available from:

<http://www.apple.com/quicktime/download/win.html>

Format 3: Windows Media: The Microsoft system, always there and trying to keep up with the rest in video technologies. They are now up to version 10 (as at early 2006)

Download available from:

<http://www.microsoft.com/windows/windowsmedia/player/download/download.aspx>
